Professional Objective

I am a Software Engineering student at the University of Colima. I have experience in mobile (Android) and web software development, mainly through academic projects. I am seeking an opportunity to complete my professional internship in a company where I can apply my knowledge, continue learning, and contribute to the development of technological solutions. I am open to possible relocation.

Academic Projects

2023 - Agile Methodologies (Aug–Dec)

- Developed a functional software prototype using *JustinMind*.
- Applied the **SCRUM** methodology for project organization.

2024 - Application Programming (Aug–Dec)

- Developed a mobile application in *React Native* and *Android Studio* with a simulated login system.

2025 - Secure Software (Feb–May)

- Developed a CRUD system with login for a technology store.
- Implemented security measures against DDoS attacks, SQL injection, and role-based access control.

Technical Skills

- **Programming languages:** JavaScript (Intermediate), TypeScript (Intermediate), SQL (Intermediate), PHP (Intermediate), CSS (Intermediate), C++ (Basic), Python (Basic).
- **Frameworks and tools:** Node.js (Intermediate), React Native (Basic), GitHub (Advanced).
- **Methodologies:** Scrum (Intermediate).
- **Languages:** Spanish (Native), English (Intermediate – B1).

Education

University of Colima – Faculty of Telematics (2022–2026)

Bachelor's Degree in Software Engineering
